RULING ON ENTITLEMENT¹

On May 18, 2021, Josephine Feitel filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered Guillain-Barre Syndrome (“GBS”) resulting from an influenza (“flu”) vaccine received on December 10, 2019. Petition at 1. Petitioner further alleges she received the vaccine in the United States, she has experienced residual effects for more than six months, and neither Petitioner nor any other party has ever filed any action or received compensation in the form of an award or settlement for her vaccine-related injury. Petition at ¶¶ 1, 8-10. The case was assigned to the Special Processing Unit of the Office of Special Masters.

¹ Because this unpublished Ruling contains a reasoned explanation for the action in this case, I am required to post it on the United States Court of Federal Claims' website in accordance with the E-Government Act of 2002. 44 U.S.C. § 3501 note (2012) (Federal Management and Promotion of Electronic Government Services). **This means the Ruling will be available to anyone with access to the internet.** In accordance with Vaccine Rule 18(b), Petitioner has 14 days to identify and move to redact medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

On December 13, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that "petitioner has satisfied the criteria set forth in the Vaccine Injury Table ("Table") and the Qualifications and Aids to Interpretation ("QAI") for GBS following the administration of a flu vaccine." *Id.* at 6. Respondent further agrees that "the records show that the case was timely filed, that the vaccine was received in the United States, and that petitioner satisfies the statutory severity requirement by suffering the residual effects or complications of her injury for more than six months after vaccine administration." *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
